#1. Thinking Right: TEN THINGS I WOULD DO AS PRESIDENT

I have read many columnists or writers note the ten things they would do if they were President of the United States of America, so here are the first 10 things I would do after I have instructed the Federal Judiciary to follow their Constitutional restraints.

1. Require a twelve year term limit for all Senators and Representatives to the United States Congress. Any member of congress who has served more than 12 years must immediately resign, take their Social Security and leave immediately, no 'special retirement blue-ribbon retirement plans. Special elections would be held to fill the remainder of their term. No one can be elected for more than 12 years, with no return to either the House or Senate. Twelve years of service and that's it! The President is still term-limited to eight years.

2. All spending bills must be labeled and passed individually, no Amendments for pet projects. If a member of congress wants to build a bridge named for him, that's fine so long as it is an individual bill, and those who vote yea are clearly identified so they can be voted out in the next election. No two bills can be combined, Truth in Labeling has to apply to legislation or it is vetoed.

3. All Federal regulations curtailing or infringing upon a CITIZEN'S right to carry a weapon are immediately removed by Executive Order, the BATF will no longer be responsible for any citizen's purchase or use of firearms. Non-Citizens, felons or those with a criminal background are permanently denied the right to carry a weapon and will immediately be imprisoned for any infraction. Right-to-carry laws are to be enacted and enforced only by the several States as they follow the declaration of an individual's right to bear arms under the Second Amendment.

4. An immediate evaluation of all legislation not clearly in accordance with the Constitution, including entitlements and bailouts will be undertaken immediately. Every citizen's tax burden will be decreased by the percentage of the total budget saved for every program discontinued

5. All federal gas taxes will be rescinded, maintenance of all highways within each and every State will be the responsibility of that State. All Federal restrictions on drilling, refining, mining or development 'designer blends for cities or more efficient energy procurement will be rescinded.

6. The Department of Education will be disbanded and the direct supervision of all Public Schools returned to local school districts. The percentage cost savings in education spending will be reflected in the percentage decrease referred to previously.

7. All foreign aid of any type whatsoever will immediately cease and the decrease in expenditure returned to the taxpayer as previously noted.

8. All payments of funds to the United Nations will cease and that body will be strongly encouraged to leave the US before the end of the calendar year. The UN headquarters building will be demolished and the site turned into a green space park.

9. Social Security benefits will only be given to those who have paid into the system without exception.

10. Immediate, strict enforcement of all national borders will be enforced, all immigrants must have a valid passport and visa prior to entry and violation will result in immediate and permanent expulsion from the US.

These have been given in no order of importance, and the tax savings alone would stimulate our economy, while unemployment would rise when the formerly federally employed return to the real world, those qualified will quickly find jobs in the surge of expanding business in the private sector. The Defense Department Budget would be evaluated to assure funds to adequately provide for our common defense, with a strong military presence in the world. All UN Treaties will be null and void upon our departure from the United Nations. All citizens would have to expect rises in State and local taxes, but not nearly the

amount of tax savings from the lean and mean Federal budget. Removing the hand of Federal Government with its heavy glove of regulations and excess spending would lighten everyone's load and instill a feeling of well-being within the citizenry. I am aware the Legislative term limits would require Constitutional Amendment, but I think the citizenry would overwhelmingly approve this change to a broken congress.

I'm Vance and I'm thinking right

#2 Our Guest Speaker for August 1st is Fabian Calvo. Fabian is the host of 'The Fabian Calvo Radio Show', aired weekdays from 3:p.m. to 4:00p.m. on 'Tan Talk 1340AM. Listen to his show online (computer) at www.tantalk1340.com.

Fabian says, "I am not a trial lawyer, nor am I a life-long politician looking for a job. I am a dad who is concerned for his children and what kind of America and Florida in which they will live. I am a small business owner who has created jobs, balanced budgets, and understands the importance of zero based budgeting. This is the leadership needed in Tallahassee.

Check out www.FabianCalvoshow.com for excellent local, National and International News coverage; the whole truth about what is happening,.. He is a contributor on www.smartguyz.net.

Fabian Calvo and his wife Amber have a son Julian and are expecting a 2nd son very soon.

As our state legislator Fabian will evaluate all legislation on the following merits:

1. Is it constitutional?
2. Is it representative of the people I represent?
3. Does it promote limited government and advance the cause of liberty?

#3 Our guest speaker for September 5th is Marco Rubio candidate for US Senate. Former FL House Speaker is very conservative, pro-life, pro-second amendment, pro traditional family, school choice and vouchers, and has the record to prove it.. If you check on our website: www.ccpcf.org you will see the Speaker received 100% on the Christian Coalition of Florida Scorecard, meaning that of the **Ten Bills** of greatest importance in **Christians and Families** he scored 100%. We have only one Legislator currently **scoring 100% from Pinellas** our friend **Rep. Jim Frische**.

Editor Note: The following is a small review of our last meeting. If you attended perhaps it will be a pleasant review. If you missed the meeting it will tell a bit about what was missed.

MINUTES OF June 6, 2009 meeting, by secretary Jane V. Reece

Attorney Rebecca O'Dell Townsend was June's featured speaker and gave a book review of The Law by Frederic Bastiat. This fine book's premise is that life is God's gift to man and is based on individuality, property and liberty. Government is formed to protect these attributes and law is the collective right to defend them. No greater evil exists than when law becomes legal plunder and extends beyond these boundaries. Such evil is motivated by stupid greed and false philanthropy. The systematic progression of legal plunder is protectionism, socialism and communism. The speaker concluded her remarks by urging those in attendance to get people into office who will protect our country against legal plunder.

Other nuggets from the meeting included announcements by Dr. Vance Lackore. Vance alerted the membership to keep a watchful eye on the mayor's in St. Pete, to be aware of Christian Coalition's God and Country Banquet in Orlando on Sept. 12. Christian Coalition of FL is in need of donations.

Those in attendance were encouraged to call Senators Martinez and Nelson to voice dissent for the Federal Hate Crimes Bill (Senate Bill 909). It was also noted that President Obama's nominee for Supreme Court Justice, Sonia Sotomayor, is deeply in debt, an outspoken racist, and a secret member of the Belizian Grove. In addition, NASA has discovered that Global Warming is cyclical; Al Gore is now out of job!

Dr. Vance Lackore has been appointed to the state board of Christian Coalition

#4 The annual 'God and Country Dinner' On September 26th, with Dr. Richard Land as speaker. Dr. Land graduated from Princeton A.B. magna cum laude and Oxford (D.Phil.). He has served as president of the Southern Baptist Convention's of Ethics and Religious Liberties Commission since 1988. During his tenure as representative for the country's largest Protestant denomination in the country. Dr. Land has represented Southern Baptist and other Evangelical' concerns in the halls of Congress, before US Presidents, and in the media . In 2005 Dr. Land was featured in Time Magazine as on of "the twenty-five most influential Evangelicals in America"

As host of "For Faith and Family", "For Faith and Family's insights" and "Richard Land Live!" three nationally syndicated radio programs Dr. Land speaks passionately and authoritatively on the social, ethical, and public policy issues facing our country.. The "For Faith & Family" is heard by listeners each week on over 600 radio stations across the country and throughout the world on the Internet.

Dr. Land's latest book, "The Divided States of America?" What Liberals and Conservatives are missing in the God-and Country Shouting Match is published by Thomas Nelson..

What is it when someone enters your house against your will and forces you to give them your money?

Obviously, the answer is 'theft.'

What is it when the government enters your financial house and takes your money against your will? Obviously, the answer is 'redistribution of wealth' (or theft?).

What is philanthropy? It is you making a gift to someone else, usually someone in need. It can also be called charity.

What is false philanthropy? It is the government taking your money to give it to someone else, usually someone they define as 'in need'. It can also be called theft. It can also be called legal plunder.

The Constitution gives the federal House of Representatives the right to tax, but in a limited way. Taxes are for things that protect your freedom and to maintain the military. Post roads, national defense, and a few other items are specifically described as the recipients of taxes.

NOWHERE, does the Constitution state your money can be taxed to pay for welfare, to pay for other people's mortgages or to finance unions or to bail out businesses that are in trouble.

These are taxes without representation because your interests are not being represented)

When asked what kind of government the Funding Fathers had given us Mr. Franklin replied, "A Republic if you can keep it."

"When the people find they can vote themselves money, that will herald the end of the republic" Benjamin Franklin, Founding Father.

Does that sound like our government today?

Socialists have a problem. When socialists run out al other's money and it's gone, what do you do? Easy, tax citizenVoters. (The suckers)
