Thinking Right January 2010

It's the New Year, 11 months into the Presidency of Barak Obama and eleven months until the mid-term elections. We have seen dishonesty in the Congress that would put a lobbyist or any citizen in jail, all done in the name of "Good government;" a continuing fight over socializing medicine, leaving broken promises, cheating, bribery, threats, deceit, undercover machinations and sheer thuggery (Practices named after a religious sect in India who strangled their victims,) and we're talking about the President's staff! In addition, we are facing, and have already seen curtailing and rationing of medical practices, raising the probable rate of breast cancer significantly, increased taxes and fees, a Presidential promise during the campaign to bankrupt the coal industry thereby raising utility costs dramatically through tax and trade, a jobless rate of 11%, increased from 8% when BHO took office and government takeover of banks and the auto industry – giving control of the companies to the unions. A shudder is going through the voting public asking, "What or who's next?"

With eighty percent of Congress up for reelection, look for voting fraud on a scale never before known, including the massive fraud and election theft in 2008. I anticipate the Democrats will lose their 60 vote majority in the Senate, perhaps even an even split in representation in that body if the truth is published in the lap-dog media or at least a six or seven seat increase in the Republicans, especially if they will return to, and run, on a more Constitutionally correct platform. In the House of Representatives, several Democrats are already declaring they are 'retiring' to avoid the upset that's coming.

Why else, if you really need a reason, should we abandon the liberal leftist policies of the Dem's? (A title they are desperately trying to change to 'Progressive,' but it's the same socialist dogma.) For one thing their black-out on the real threat of the Jihadists. Major Hasan, the Fort Hood shooter was known to be an Islamic sympathizer, his co-workers and superiors knew it, his patients knew it, but all were afraid for their own careers if they brought it to the attention of the upper echelon, costing America the lives of at least 13 brave soldiers. Militants have training camps in thirty states, training gullible recruits from prisons and the inner cities in killing and other terrorist techniques. The FBI arrests cadres of home grown terrorists on a regular basis, but the leftists insist on a politically correct- non-alarmist, hiding your head in the sand kind of tolerance for subversive activity.

The debt ceiling has just been raised to over 12 TRILLION dollars, (Twelve Thousand Billion) excluding the costs of the new proposed Obamacare health plan and other pork projects (Vote bribes) included in almost every piece of Democrat-sponsored legislation. Remember – THAT'S OUR MONEY THEY'RE SPENDING! My suggestion is for you to start now, read all you can from reliable sources, listen to what the politicians say, and make up your mind to vote the incumbents out unless they have a proven conservative track record, and elect true conservative, strict Constitutionlists to office in November 2010.

Upcoming Events.....

Be sure to mark your calendars for our **February 6th** meeting. Our special guest will be Senate candidate and former Florida Speaker of the House, **Marco Rubio**. Our location for the meeting will be at **Northside Christian School** located at 7777 62nd Ave N. St. Petersburg, Fl.

In The News.....

If we are going to change the direction of this country with the 2010 elections, we are going to have to band together as a nation and support conservative candidates. I have found online a conservative blog, www.redstate.com, which is doing an excellent job of finding, highlighting and raising money for conservative candidates across the nation. They were one of the first to draw attention to Marco Rubio. I attended their conference a few months back in Atlanta. There were candidates from across the nation, including Rubio, but their featured speaker was Lynn Chaney. I encourage you to visit their site and sign up for their morning briefing.

Have you seen the new Ray Stevens video....this is good. http://www.youtube.com/watch?v=Dc_-L4fyLUo

10 Reasons Why Republicans Will Win In 2010

by Mike Huckabee

As Republicans campaign against Democrat incumbents nationwide, I hope they will use the following list to help them make their case to voters.

10. TARP or as I like to call it the Congressional Relief Action Program - The money for TARP was so urgent that Nancy Pelosi, Harry Reid and company didn't add any transparency to the process and now we don't know where much of the money went.

#9. First Stimulus Bill - It stimulated spending in Democrat Congressional districts and created almost no new jobs.

#8. Auto Bailout - Another bailout and another expansion of government.

#7. ACORN – This corrupt organization was a favorite of House and Senate Democrats and well funded by their congressional patrons. Voters will remember.

#6. Obama Czars – Special advisors to the President, circumventing the traditional Congressional confirmation process. The Obama administration's widespread and deliberate use of "Czars" is a misuse of power and needs to be reined in.

#5. CAP and TAX – Another massive tax increase on American families and small businesses.

#4. Ben Nelson's Payoff – Ben Nelson sold his health care vote to Harry Reid for \$300+ million in lower taxes for Nebraska.

#3. The \$12 Trillion+ National Debt – Democrats in Congress spending money they don't have. Mortgaging our children's future.

#2. Nationwide Unemployment rate at 10% - The Democrats are spending money like it's going out of style and yet they are ignoring policies that would create new jobs.

1 The Government Takeover of Health Care - If the bill that comes out of Congress is signed into law, it will amount to a massive government expansion into our daily lives. It is the number one reason why Democrats should be defeated.
